

The Terror of Terrorism and Disaster: Planning, Response and Recovery

There is an emerging appreciation of psychological reactions on the management of disaster and terrorist events. An Israeli model will be presented that integrates behavioral health perspectives with practical approaches to dealing with the terror of terrorism and disaster. The presentations in this conference will help to stimulate discussion and promote further planning of UASI strategies in our local communities.

Presenters:

Nathaniel Laor, Director, Cohen-Harris Center for Trauma and Disaster Intervention; **Leo Wolmer**, Director of Research, Cohen-Harris Center for Trauma and Disaster Intervention; **Smadar Spirman**, Director, City of Tel-Aviv Emergency Treatment Services; **Steven Marans**, Director, National Center for Children Exposed to Violence, Yale Child Study Center; and **Stephen Bunnay**, Chair, Yale Medical School Department of Psychiatry, Yale University; **Steven Berkowitz**, Medical Director, The National Center for Children Exposed to Violence; **Craig Newton**, Yale New Haven Hospital; **Leonard Barbieri**, UASI Program Director, National Center for Children Exposed to Violence; **John Burtula**, Chief Administrative Officer, City of New Haven; and **Wayne Dailey**, Assistant Clinical Professor, Department of Psychiatry, Yale Medical School
